\*The four-year plan is a suggested curriculum to complete this degree program in four years based on placement into BIOL 121N/BIOL 122N, MATH 162M and foreign language met in high school. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.
